Lab - 9 :

```java
class Dept implements Runnable
{
    Thread mythread ;
    Dept()
    {
        mythread = new Thread(this, "dept thread");
        mythread.start();
    }
    public void run()
    {
        try
        {
            for(int i=0; i<5; i++)
            {
                System.out.println("CSE");
                Thread.sleep(2000);
            }
        }
        catch(InterruptedException e)
        {
            System.out.println("CSE interrupted");
        }
```

```
        System.out.println("CSE is over");
    }
}

class threadmain
{
    public static void main(String args[])
    {
        Dept ent = new Dept();
        try
        {
            for(int i=0; i<5; i++)
            {
                System.out.println("BMS College of Engineering")
                Thread.sleep(10000);
            }
        }
        catch (InterruptedException e)
        {
            system.out.println("college interrupted");
        }
    }
```

```java
        System.out.println("BMS College of Engineering is
                                                            over");
    }
}
```
